EDUCATION

Baylor University, Waco, Texas - Information Systems, B.B.A.

EXPERIENCE

Systems Integration

APRIL 2007 - PRESENT

Washington Hospital Healthcare Systems

- Implement HL7 COLD interfaces with McKesson Horizon Patient Folder. Formatting result messages to post into HPF
- Implement bi-directional Emergency Department system (MedHost) for order/result between:
 - LAB (Horizon LAB)
 - Radiology (ImageCast)
 - HIS (McKesson STAR)
- Support Application Analyst to troubleshoot when issues arise with their supported applications
- HP-UX Systems Admin for Cloverleaf servers

Interface Analyst II

JULY 2004 - MARCH 2007

Methodist Hospital Healthcare Systems

- Work with third party vendors to establish and test connectivity, message transmission, message processing, and functionality using Cloverleaf Interface Engine.
- Completed bi-directional interfaces (order/result) between LabCorp and Eclipsys.
- Build and test ADT interfaces between SCC and Eclipsys.
- Upgrade Cloverleaf 3.5 to 5.2

System Analyst

SEPTEMBER 2000 - JULY 2004

University of Texas - Harris County Psychiatric Center

- Implement ADT interfaces, establish and test connectivity, message transmission.
- Monitors activities across multiple system platforms using Cloverleaf alerts to ensure the Cloverleaf engine environment is stable and capable of delivering messages to downstream systems.

Applications Engineering Specialist

MARCH 1997 – AUGUST 1999

Schlumberger

- Travel to field offices to install Technical Services software and upgrade support.
- Perform data transfer (import/export) into depository database, back up data sets with worldwide field offices.
- Perform database upgrade and module testing for specific international field offices.

CERTIFICATION

- Cloverleaf Level III Certified
